Modules and Packages

Modules

```python
"""Importing Modules"""
def add(a,b):
    c=a+b
    return c
```
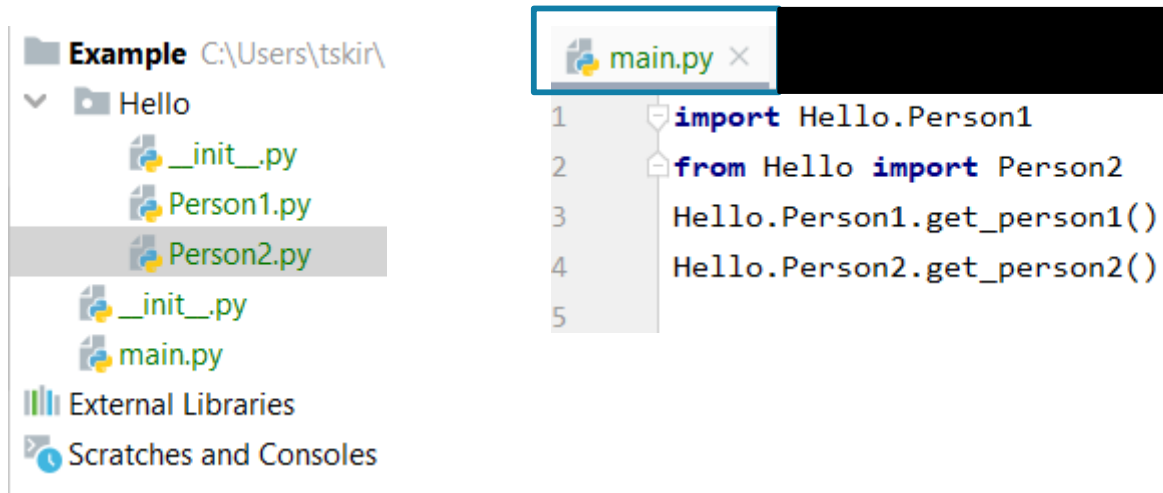

Result:

```python
In [66]: import moduleAdd

In [67]: moduleAdd.add(4,3)
Out[67]: 7
```

Packages

```
1    import Hello.Person1
2    from Hello import Person2
3    Hello.Person1.get_person1()
4    Hello.Person2.get_person2()
5
```

Result:

```
Hello I am Person1
Hello I am Person2
```
